

Mason Osten

High School Senior

605 Riverwood drive

Beavercreek, OH 45430

(937) 999-9020

School: [Osten.3@daytonstemschool.org](mailto:Osten.3@daytonstemschool.org)

Personal: [Masonosten@gmail.com](mailto:Masonosten@gmail.com)

Objective:

I am a challenge seeking student that wants to pursue my passion to work for a business/ business of my own regarding computer science, computer hardware, or cyber security. Coming from a STEM school and taking 6 High school engineering classes, I have been able to work with computers since the beginning of middle school. This has helped me become more aware of what I'm passionate about.

Background:

I come from a family that both my parents have graduated from Ohio State, and

Experience:

Key Club (2-3 years.)

Helped with community, school, and other countries. Selling things to students, money for organizations. Participated in Food packing Events towards other counties. Helped design things that are implemented into the school. (Art, classes, events.)

Race Club (Starting Senior year.)

Band (Starting Senior year.)

ACT/SAT Club

Was a club in 9<sup>th</sup> grade I participated in to learn more about the ACT test and practiced for the test.

Workout Club (Starting Senior year.)

I have work experience outside of the school with sales including festivals, community events, and a self-owned business through Young Living.

I have participated in community events such as parades, golf outings, honor flights, tornado damage with community, organizing events and ribbon cuttings with my internship for the community.

Awards;

Engineering Award. (6 High School classes of Engineering.)

Hobbies and Interest;

Playing Instruments:

Piano 11 years, guitar 3 years, ukulele 3 years, and singing for about 2.

I love using my creative mind and creating art.

Internship:

My internship was with Amanda Byers, President of Dayton's Chamber of Commerce. (Former President of Beavercreek's Chamber of Commerce.) This was an internship to learn about the business side of the community and how people work in the business field. I learned a lot about how events are organized, businesses coming into the city, and helping out the community. My internship page will tell a lot more about this experience in detail.
